Screenshot Captor

“It supports multiple screens, full screen, window, rectangular area, and fixed area captures from either hot keys or from the programs menu. The cursor can be included or excluded. It’s the only capture facility that can take a self-portrait. The software can acquire images from a scanner.”

What’s it for? - As an alternative to the utilities that come with windows, free screen capture products often cover many useful features and functions: capture full or selected areas, auto detect windows, snap scrolling windows, allow delayed captures, etc.
