## BackUp Maker

Never been easier to create backups.

BackUp Maker is the professional solution for creating backups. The intuitive operation possible, despite the large range of functions easy and quick creation of new backup jobs to back up files and folders. Once set, you can forget the annoying job of backup creation confidently - BackUp Maker saves your data on request, fully automatic, scheduled or event-dependent, for example, in Windows or logout. Reduce the volume of data by creating incremental backups of your data or restrict the data to back strain by the use of extensive filtering options. For multiple security BackUp Maker creates multiple backup generations on request. The integrated burner driver allows you to write backups directly to CD / DVD. BackUp Maker also supports backing up to internal and external hard drives (local or network), USB storage devices and zip drives. If you make a FTP server is available, it is also an automatic upload - optionally via a secure SSL connection (FTPS) - can be performed. to distributed transmission / storage of your backups are ready to split variants, also the input of individual split size is offered. encrypt They prevent your backups with up to 256-bit using AES to the third party access to your backed-up, sensitive data. To optimize memory use BackUp Maker compresses your data in standard Zip format. This allows you to read and restore backups with any software that supports the PkZip standard version 4.5.
